

In 2030

**College kid:** "In history class, we learned that the COVID-19 Pandemic in 2020 was really bad. What was it like?"

**Parent:** "Well, everything was shut down in an attempt to kill the virus, but not everyone followed the order to quarantine for 15 days, so it lasted longer than anyone expected. Many people died who shouldn't have. Grocery stores were out of everything because people were hoarding as much as they could. We were scared of economic failure for our country and for ourselves because we couldn't work. Don't you remember it? You were 8."

**College kid:** "All I remember was the school closing and being homeschooled. I remember doing scavenger hunts in our yard. I remember eating meals as a family for a change. I remember getting great sleep because I wasn't up late for homework or getting up early for school. I remember board games as a family. I remember watching our pastor on our laptop. Honestly, it was the happiest time of my childhood."

Don't lose perspective.
